

Please do not interfere with the New Jersey "do not call" law. It is working well for me. It does not prohibit commerce. Anyone who wants to receive calls need not sign up on the do-not-call list. The telemarketers have no right to use my phone, which I pay for, to call me when I do not want to be called. Any administration that changes this will not get my vote. It is so pleasant to sit down to dinner and not have the telephone ring 5 times before we are finished with dinner.
